Top Windows Mobile Toys and Tools

guitoo - Mon, 2009-08-31 09:46

So much tools, toys, code out there! May I suggest few of my favorite items.

Mobile TaskManager: view CPU and RAM usage and running processes

<http://www.iaccarino.de/silvio/ppcstuff.htm> [1]

TouchPal: super user friendly keyboard. Switching between languages is super easy

<http://www.cootek.com/> [4]

psShutXP: windows XP like shutdown and reboot utility <http://ppcsoft.narod.ru/english/> [6]

[7]

Calc98: scientific calculator <http://www.calculator.org/download.aspx> [8]

[9]

Program Launcher: utility to list icons on today screen

[10]

CeRegEdit: runs actually on the desktop to edit registry on the mobile device <http://ceregeditor.mdsoft.pl/> [11]

My Mobiler: remote control the phone from the desktop <http://www.mymobiler.com> [12]

[13]

Advanced Configuration Tool: for techies to tweak the registry to alter standard OS and app behavior <http://www.touchxperience.com/en/advanced-configuration-tool.html> [14]

[15]

Pocket Power Manager: adds in the task bar small icons to rotate screen, power off, screen off and reset the device <http://www.PocketPowerManager.com> [16]

[17]

Personal Informant (commercial software): replacement of basic PIM apps of Windows. Super fine tuning, great tool <http://www.pocketinformant.com> [18]
